POINTFUL EDUCATION

Pointful Education is a leader in innovative learning solutions for secondary learners, delivering a robust catalog of online courses for **Career and Technical Education (CTE), electives, and STEM**. Courses are aligned to the National Career Clusters® and aim to equip learners with the knowledge and skills needed for future careers. Our instructional framework is designed to prepare for industry certification exams, engage learners in career exploration, and offer an opportunity to learn about new and emerging technologies. With flexible implementation options, courses may be used for virtual and blended learning programs and can serve as a textbook replacement or to supplement the classroom curriculum.

Flexible Integrations
Courses are compatible with most Learning Management Systems (LMS). If you don't have a LMS we will provide one.

Affordable Licensing
With several implementation options to choose from, we offer affordable pricing plans to meet your budget needs.

Engaging Design
Our engaging instructional design is packed with interactives, videos, rich-text, projects, and is accessible to all learners.

Professional Services
We provide the resources and training materials to teachers and administrators to ensure a seamless implementation.

QUALITY MATTERS QM

Grounded in research and driven by best practices, **Quality Matters** provides us with a system for developing and maintaining a curriculum that is current with research-supported practices. As a recognized K12 member of Quality Matters, we are committed to their mission to "promote and improve the quality of online education and student learning".
